	exposure prophylaxis (PrEP), other preventive interventions, testing, and treatment referrals. As part of the Unified Health System (SUS), the public facility delivers comprehensive, free care — including prevention supplies, medications, testing, and counseling — ensuring equitable access for the entire community.	Congressmen for the response to HIV. The partnership with parliamentarians has been crucial in promoting access to long-acting injectable treatments and plays a pivotal role in mobilizing federal budget resources to strengthen Brazil's national HIV response.	and specialized HIV care. The Polyclinic, which provides advanced AIDS care and treatment for re-engagement. It illustrates an integrated, rights-based model connecting social protection with HIV services.	integration between a public referral center providing integrated prevention, diagnosis, and treatment for HIV/AIDS, hepatitis, tuberculosis, and other STIs and the Transgender Health Clinic, offering gender-affirming and specialized care, making it a key hub for comprehensive and inclusive health services in the Federal District.
17:30 – 18:00	Transfer from Field Visit to the Royal Tulip			

**Note:**

1. Times may vary from group to group. It depends on the place visited.
2. All participants must register and attend the Exhibition: "40 Years of the HIV/AIDS Response in Brazil". Transfers to field visits will be made exclusively from the Sesi Lab Museum.
